

DUVASU, Research Policy 2022

DUVASU, Research Policy

DUVASU has a well-defined policy for promotion of research approved by the Executive Council which is being updated from time to time.

DUVASU envision creating a research culture for achieving international distinction through excellence in research and innovation by exploring novel research paradigms and promoting research to address global, national and societal challenges. Towards this endeavor, DUVASU is committed to fostering a research culture in the University by encouraging research initiatives to meet the concept of “**One Health**”.

The prime objectives for incentivizing research are to:

- Ensure a positive research environment, ensure high quality of research and enhance focus on outcome based research
- Strengthen linkages by expanding national and international collaborations and partnerships with key academic institutions, industry, government, policy makers and sponsors of research
- Provide robust and flexible infrastructure conducive to research
- Enhance overall research funding – extramural and intramural
- Support and encourage faculty and students in developing and advancing their research potential

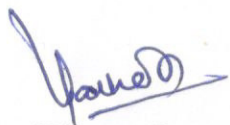

Initiatives for promotion of research

1. **Establishment of Centers of Excellence** in defined research areas.
2. **Continuously improve research training and enhance research skills** by organizing workshops, training programmers for students and faculty regarding research methodology, writing proposal, management of research project, dissemination of research findings, writing of publication, academic integrity, ethical practices etc.
3. Enhance support for organizing national and international conferences/workshop/seminars/ brain storming sessions etc.
4. **Nurture, strengthen and build strong relationships and partnerships** with key academic institutions, industry, government, policy makers and sponsors of research both in India and abroad, based on their research areas.
5. **University signed MOU's with various institutions/organization / industries etc to support academic and research atmosphere.**
6. **Constant training and skill enhancement programmers for students and faculty** in order to engrain a culture of innovation and entrepreneurship in young minds.
7. **Expansion and Upgradation of Central Instrumentation Facilities/Departmental research facilities** and making them open for all departments and colleges.
8. **Promoting effective documentation of research** through a digital portal named **PIMS (Project infrastructure Management System)**.
9. **Travel Grant for college teachers** for attending society Conference, workshops etc.

10. **Best thesis award:** Research Excellence Awards in the form of Certificate of Recognition for student & their Guide (Faculty). The awards will be based on excellence in research at masers & PhD level during a year.
11. **Research grants for exceptional research performance, filling patents, technology transfer to industry.**
12. **IIC (Industry Institute Interaction cell):** creation of cell defines the thrust areas of collaboration, promotes university-industry linkage to the demand driven research.
13. Promoting research **by involving in multi institution mega projects** with the concept of speeding research outcomes.
14. **Institution grant** for promotion research amongst young faculty.
15. **University follows and promotes research Ethics.** All research programs undergo scrutiny through various levels such as DRC (Departmental Research Committee), CRC (College Research Committee) and Institutional Animal Ethics Committee (IAEC).
- X 16. **Documents such as** synopsis, thesis and publications etc are scrupulously followed for Plagiarism check by HOD, Advisory Committee and by Librarian to further promote research culture. -
